AMMETER (MR-80) SQUARE Dial Moving Coil (AL-PY2-B3)

Code: AL-PY2-B3 HSN: 9030 GST: 18% Brand: AVAIN LABS

AVAIN LABS AMMETER (MR-80) SQUARE Dial Moving Coil (AL-PY2-B3)

The AVAIN LABS Ammeter MR-80 is a precision DC measuring instrument designed for labs and educational use. It features a clear square dial for easy reading and uses moving coil technology for accurate current measurement.

Available in multiple ranges

AL-PY2-B3 = DC with Desk Stand Range 0-1, 1.5 ,3, 5, 10Amp (Any one range)

AL-PY2-B4 = AC with Desk Stand Range 0-1 ,3 ,5Amp. (Any one range)

AL-PY2-B5 = DC with Desk Stand Range 0-15 and 0-25 Amp. (Any one range)

You are requested to select the appropriate range prior to placing your order.

Key Features:

- Moving coil DC ammeter for accurate current measurement
- MR-80 square dial for clear and easy reading
- Available ranges: 0–1A, 1.5A, 3A, 5A, 10A (any one range)
- Durable construction for long-term lab use
- Comes with desk stand for stable placement
- Ideal for physics labs, electrical experiments, and engineering students
- Suitable for schools, colleges, and training institutes
