Automatic carton erector DQKX4540

Code: DQKX4540 GST: 18% Brand: AVAIN LABS

AVAIN LABS® Automatic carton erector DQKX4540

The AVAIN LABS® Automatic Carton Erector DQKX4540 is an advanced industrial packaging machine designed for high-speed automatic carton forming and bottom sealing operations. Built for efficiency, precision, and durability, this automatic carton erector significantly improves packaging productivity while reducing manual labor costs in modern production lines.

Engineered with intelligent automation technology, the DQKX4540 automatically erects, folds, and seals cartons with consistent accuracy, making it an ideal solution for warehouses, logistics centers, e-commerce fulfillment, food processing units, pharmaceutical industries, and manufacturing facilities.

Its compact structure, stable performance, and easy integration into automated packaging lines make it a reliable choice for businesses seeking efficient carton packaging automation.

Key Features

- Fully automatic carton erecting and bottom sealing system
- High-speed carton forming for increased production efficiency
- Precision folding and sealing mechanism for secure packaging
- Heavy-duty industrial-grade construction for long-term durability
- User-friendly touchscreen control interface
- Stable and low-noise operation
- Compatible with various carton sizes and packaging applications
- Easy adjustment and quick size changeover
- Energy-efficient and low maintenance design
- Suitable for continuous industrial packaging operations

Applications

The AVAIN LABS® DQKX4540 Automatic Carton Erector is widely used in:

- E-commerce packaging lines
- Logistics and warehousing operations
- Food and beverage industries
- Pharmaceutical packaging
- FMCG manufacturing
- Electronics and consumer goods packaging
- Industrial carton preparation systems

Technical Advantages

The DQKX4540 carton erecting machine is designed to streamline packaging workflows by automating repetitive carton setup tasks. Its advanced control system ensures accurate carton forming with minimal downtime and consistent sealing quality.

The machine supports high-volume production environments while maintaining packaging precision and operational stability. Its efficient automation reduces labor dependency and helps businesses optimize packaging throughput.

Why Choose AVAIN LABS® DQKX4540?

- High-speed automatic carton forming performance
- Improves packaging line productivity
- Reduces manual packaging effort and labor costs
- Consistent and professional carton sealing quality
- Easy operation with intelligent controls
- Industrial-grade reliability for long-term use
- Ideal for medium and large-scale packaging operations
- Trusted AVAIN LABS® packaging automation technology

Specifications

Model No	DQKX4540
Power	220-380V ~ 50-60Hz
Carton Size (LxWxH)	250-515 x 150-400 x 150-450 mm
Packaging Speed	8-12 Box/Min
Air Source	450 L/Min
Table Height	600 mm
Machine Size (LxWxH)	2075 x 1270 x 1475~1550 mm
Machine Weight	450 Kg

Available models (3)

Cat. No.	Model / Size	Size	HSN
DQKX4540-S1	Small	Small	
DQKX4540	Standard		
DQKX4540-S2	Large	Large
