BIRTH DEMONSTRATION MODEL

Code: W-2162 GST: 18% Brand: AVAIN LABS

AVAIN LABS® BIRTH DEMONSTRATION MODEL

he AVAIN LABS® Birth Demonstration Model (Pelvis with Fetal Skull) is a high-quality anatomical teaching aid designed to demonstrate the mechanics of childbirth and fetal positioning during labor and delivery. This educational model is widely used in medical colleges, nursing schools, midwifery training centers, hospitals, and healthcare institutions for practical demonstrations in obstetrics and gynecology education.

The model consists of two innominate bones, sacrum, coccyx, and a fetal skull, accurately representing the female pelvic anatomy and fetal head relationship during the birthing process. The fetal skull is firmly connected to the pelvis model using a flexible metal tube, allowing it to be positioned and fixed in multiple orientations to demonstrate various stages and positions of labor and delivery.

Designed for durability and repeated classroom use, this birth demonstration model helps students and healthcare professionals understand fetal engagement, descent, rotation, and delivery mechanisms in a clear and interactive manner.

Also known as the Pelvis with Fetal Skull Model, this anatomical model is an essential teaching tool for medical education and clinical training programs.

Key Features

? Realistic Female Pelvis Anatomy featuring two innominate bones, sacrum, and coccyx.

? Includes Detailed Fetal Skull for demonstrating fetal positioning and delivery mechanisms.

? Flexible Metal Tube Connection allows the fetal skull to be positioned and secured in multiple orientations.

? Demonstrates Childbirth Mechanics including engagement, descent, rotation, and delivery stages.

? Ideal for Medical Education in obstetrics, gynecology, nursing, and midwifery training.

? Durable Construction suitable for regular classroom and laboratory use.

? Excellent Visual Teaching Aid for practical demonstrations and clinical skill development.

? Mounted on a Stable Base for easy handling and presentation during lectures and demonstrations.

Applications

- Medical Colleges and Universities
- Nursing Schools and Midwifery Institutes
- Obstetrics and Gynecology Departments
- Hospitals and Clinical Training Centers
- Healthcare Education Programs
- Anatomy and Physiology Laboratories

Technical Specifications

- Brand: AVAIN LABS®
- Product Name: Birth Demonstration Model
- Alternative Name: Pelvis with Fetal Skull
- Material: High-Quality Durable Polymer
- Components Included: Two Innominate Bones Sacrum Coccyx Fetal Skull Flexible Metal Tube Connector
- Two Innominate Bones
- Sacrum
- Coccyx
- Fetal Skull
- Flexible Metal Tube Connector
- Mounting: Stable Display Base
- Application: Obstetrics, Gynecology, Nursing and Medical Education
