BLOOD ROLLER MIXER

Code: W-1725 GST: 18% Brand: AVAIN LABS

AVAIN LABS® BLOOD ROLLER MIXER

The AVAIN LABS® Blood Roller Mixer is a precision laboratory instrument designed to gently and continuously mix blood samples to maintain homogeneity without causing cell damage. Ideal for pathology laboratories, blood banks, hospitals, diagnostic centers, research facilities, and educational institutions, this mixer ensures uniform sample preparation for accurate testing and analysis.

Equipped with 4 durable rollers, each 230 mm long, the mixer provides smooth and consistent rolling action, allowing blood samples and other biological fluids to remain properly mixed during storage, testing, and processing. Its compact design, reliable performance, and user-friendly operation make it an essential instrument for routine laboratory workflows.

Key Features:

- Premium AVAIN LABS® Blood Roller Mixer
- Designed to make blood samples homogeneous through gentle mixing
- Equipped with 4 rollers, each 230 mm long
- Smooth rolling action helps prevent sedimentation
- Suitable for blood collection tubes and laboratory sample containers
- Compact, durable, and easy-to-use design
- Provides uniform and continuous sample mixing
- Reliable performance for routine laboratory applications
- Ideal for hospitals, blood banks, diagnostic centers, and research laboratories

Technical Specifications:

- Type: Blood Roller Mixer
- Number of Rollers: 4
- Roller Length: 230 mm
- Application: Homogenization and mixing of blood samples and biological fluids

Applications:

Ideal for blood sample mixing, hematology testing, clinical diagnostics, pathology laboratories, blood banks, medical research, biotechnology laboratories, and sample preparation procedures.

Why Choose AVAIN LABS® Blood Roller Mixer?

- Ensures uniform and gentle blood sample mixing
- Helps maintain sample integrity and consistency
- Durable construction for long-term laboratory use
- Suitable for clinical, research, and educational applications
- Trusted AVAIN LABS® quality and performance
