CPR Training Manikin Adult Male & Child (2-in-1) AL-5006

Code: AL-5006 GST: 18% Brand: AVAIN LABS

AVAIN LABS® CPR Training Manikin Adult Male & Child (2-in-1) AL-5006

The AVAIN LABS® CPR Training Manikin Adult Male & Child (2-in-1) AL-5006 is a versatile CPR and resuscitation training simulator designed for adult and child cardiopulmonary resuscitation (CPR) training. Its two-in-one configuration allows instructors and learners to practice essential CPR techniques on a single training manikin, making it suitable for medical, nursing, first-aid, and emergency response education.

The manikin features a full-head CPR design, realistic airway opening, jaw thrust maneuver capability, and a life-like breathing function to support practical training. A unique one-way valve system contributes to hygienic training, while the compression mechanism produces a clicking sound when the correct compression depth is reached, providing immediate tactile and audible feedback.

A three-position selector dial allows the simulator to be configured for different training modes. The manikin is also AED compatible, allowing trainees to incorporate automated external defibrillator procedures into CPR training. AED is not included.

Special Features

- Two-in-One Simulator – Supports both Adult and Child CPR training in one manikin.
- Full Head CPR – Enables practical training involving the head and airway.
- Jaw Thrust Maneuver – Supports training in airway-opening techniques.
- Life-Like Breathing Function – Provides a realistic breathing training experience.
- Unique One-Way Valve – Designed to support hygienic CPR training.
- Compression Click Feedback – Audible clicking indicates achievement of the correct compression depth.
- Three-Position Selector Dial – Allows selection of the required training position/mode.
- AED Compatible – Suitable for incorporating AED training into CPR practice. AED not included.
- Ultra Hygienic Design – Designed with hygiene considerations for repeated training use.
- Realistic Airway Opening – Provides practical demonstration of airway-opening procedures.

CPR Training Applications

The AVAIN LABS® Adult & Child 2-in-1 CPR Training Manikin AL-5006 is suitable for practicing essential cardiopulmonary resuscitation, airway management, rescue breathing, chest compressions, jaw thrust techniques, and AED procedures.

Its dual adult-child configuration makes it useful for training programs that require CPR skills practice across different age groups without needing separate adult and child training manikins.

Ideal For

- Medical Colleges & Universities
- Nursing Colleges & Training Institutes
- Hospitals & Healthcare Training Centers
- Paramedical Institutes
- First-Aid Training Centers
- CPR Training Centers
- Emergency Response Training Programs
- Medical & Nursing Skills Laboratories
- Healthcare Professional Training
- Educational Institutions
