HUMAN FEMALE REPRODUCTIVE PELVIS SECTION MODEL

Code: W-3073 GST: 18% Brand: AVAIN LABS

AVAIN LABS® HUMAN FEMALE REPRODUCTIVE PELVIS SECTION MODEL

The AVAIN LABS® Human Female Reproductive Pelvis Section Model is a detailed anatomical teaching model designed to support the study and demonstration of the female reproductive system and pelvic anatomy. It is an effective educational aid for teaching human anatomy in medical colleges, nursing institutions, schools, universities, hospitals, and healthcare training centres.

The sectional design allows students and educators to study the important anatomical structures of the female pelvis and reproductive system in a clear and practical manner. The model helps demonstrate the anatomical relationship between the reproductive organs and surrounding pelvic structures, supporting improved visual understanding during classroom teaching and practical training.

The AVAIN LABS® Human Female Reproductive Pelvis Section Model is suitable for anatomy education, medical demonstrations, nursing education, obstetrics and gynaecology teaching, and healthcare training programmes. Its detailed three-dimensional representation provides a valuable alternative to two-dimensional diagrams and charts, helping learners better understand the structure and arrangement of the female pelvic and reproductive anatomy.

Designed for repeated educational use, this anatomical model is a useful addition to medical laboratories, anatomy departments, clinical skills centres, and educational institutions.

Key Features

- Detailed Human Female Reproductive Pelvis Section Model
- Designed for the study of female pelvic and reproductive anatomy
- Sectional anatomical design for improved visual understanding
- Supports three-dimensional learning and demonstration
- Helps demonstrate the relationship between reproductive and pelvic structures
- Suitable for anatomy and physiology education
- Ideal for medical, nursing, and healthcare training
- Useful for obstetrics and gynaecology teaching
- Suitable for classroom demonstrations and practical learning
- Designed for repeated educational use

Educational Applications

The AVAIN LABS® Human Female Reproductive Pelvis Section Model is suitable for:

- Human anatomy education
- Female reproductive system study
- Pelvic anatomy demonstrations
- Medical college teaching
- Nursing education
- Obstetrics and gynaecology education
- Anatomy and physiology laboratories
- Healthcare professional training
- Clinical skills training centres
- Schools, colleges, and universities
- Patient education and anatomical demonstrations

Why Choose AVAIN LABS® Human Female Reproductive Pelvis Section Model?

The AVAIN LABS® Human Female Reproductive Pelvis Section Model provides an effective visual and hands-on learning tool for understanding the complexity of female pelvic and reproductive anatomy. Its sectional design helps learners observe important anatomical relationships and structures in a three-dimensional format.

It is a practical educational resource for institutions seeking reliable anatomical teaching models for medical, nursing, anatomy, physiology, obstetrics, gynaecology, and healthcare education.
