HUMAN FOOT JOINT

Code: W-3136 GST: 18% Brand: AVAIN LABS

AVAIN LABS® HUMAN FOOT JOINT

The AVAIN LABS® Human Foot Joint Model is an anatomical teaching model designed to provide a clear and practical representation of the human foot joint and its anatomical structures. It is an ideal visual aid for understanding foot anatomy, joint structure, and the relationship between the bones and surrounding anatomical features.

Designed for medical education, anatomy teaching, physiotherapy training, nursing education, sports science, and healthcare training, the AVAIN LABS® Human Foot Joint Model helps students and professionals visualize anatomical concepts through an easy-to-understand three-dimensional model.

Key Features

- Detailed representation of the human foot joint anatomy
- Three-dimensional anatomical model for effective visualization
- Useful for anatomy and medical education
- Ideal for classroom teaching and practical demonstrations
- Helps students understand the structure and positioning of foot joints
- Suitable for medical, physiotherapy, nursing, and healthcare training
- Easy to handle, demonstrate, and display

Applications

The AVAIN LABS® Human Foot Joint Model is suitable for a wide range of educational and training applications, including:

- Human anatomy teaching
- Medical student education
- Physiotherapy training
- Nursing education
- Sports science and rehabilitation studies
- Classroom and laboratory demonstrations
- Healthcare professional training
- Patient education and anatomical presentations

Educational Benefits

The model provides a practical visual reference for explaining foot joint anatomy, bone positioning, and anatomical relationships. Its three-dimensional format can help make anatomy lessons more engaging and easier to understand, particularly during classroom demonstrations and hands-on training.

Why Choose AVAIN LABS®?

AVAIN LABS® offers a range of anatomical, educational, and laboratory products designed to support teaching, training, research, and professional education. Our products are developed with a focus on practical use, educational value, and clear anatomical visualization.

Choose the AVAIN LABS® Human Foot Joint Model as a practical teaching aid for medical, physiotherapy, nursing, sports science, and anatomy education.

Contact AVAIN LABS® for product specifications, availability, packaging details, and bulk requirements.
