MICROPIPETTE MULTICHANNEL

Code: AL-ME015B HSN: 9033 GST: 18% Brand: AVAIN LABS

- Excellent repeatability and reproducibility
- Maintenance-free design
- Re-calibration facility available
- Lightweight ergonomic construction
- Easy tip ejection system
- Comfortable finger rest for prolonged use
- Chemically resistant body
- Smooth plunger operation
- Compatible with standard pipette tips
- Durable laboratory-grade construction
- Suitable for repetitive liquid handling

Technical Specifications

Available Volume Ranges

- 0.5–10 µL
- 5–50 µL
- 10–100 µL
- 20–200 µL
- 30–300 µL

(Additional volume ranges available on request.)

Applications

- ELISA Testing
- PCR Sample Preparation
- Molecular Biology
- Cell Culture
- Microbiology Laboratories
- Biotechnology Research
- Clinical Diagnostics
- Pharmaceutical Research

AVAIN LABS® MICROPIPETTE MULTICHANNEL

The AVAIN LABS® Multichannel Micropipette is a precision-engineered laboratory instrument designed for fast, accurate, and reproducible liquid handling across multiple samples simultaneously. Featuring an advanced 8-channel air displacement system, this micropipette is ideal for high-throughput laboratory applications such as ELISA, PCR preparation, cell culture, molecular biology, microbiology, pharmaceutical research, and clinical diagnostics.

Manufactured from high-quality, lightweight, and chemically resistant materials, the AVAIN LABS® Multichannel Micropipette provides excellent ergonomics, minimizing hand fatigue during repetitive pipetting. The smooth volume adjustment mechanism and precision-engineered piston system ensure consistent dispensing with exceptional accuracy and repeatability.

Designed for professional laboratory environments, the micropipette includes an easy-to-read digital volume display, simple tip ejection mechanism, and recalibration facility for long-term reliable performance. Compatible with standard micropipette tips, it delivers dependable results in research laboratories, universities, hospitals, biotechnology industries, and quality control laboratories.

Key Features

- 8-Channel Air Displacement System
- High precision and excellent accuracy
- Easy volume adjustment

Specifications

Brand	AVAIN LABS®
Product	Multichannel Micropipette
Type	Adjustable Volume
Channels	8 Channels
Operating Principle	Air Displacement
Volume Adjustment	Manual Adjustable
Calibration	User Re-Calibratable
Tip Ejection	Individual Push Button
Construction	Lightweight, Chemical Resistant
Compatibility	Standard Micropipette Tips

Available models (4)

Cat. No.	Model / Size	HSN
AL-ME015B-1	8 Channel Non Autoclavable	9033
AL-ME015B-2	12 Channel Non Autoclavable	9027
AL-ME015B-3	8 Channel Fully Autoclavable	9027
AL-ME015B-4	12 Channel Fully Autoclavable	9027
