Semi Automatic Paste Filling Machine

Code: W-849 GST: 18% Brand: AVAIN LABS

AVAIN LABS® Semi Automatic Paste Filling Machine

The AVAIN LABS® Semi Automatic Paste Filling Machine is a high-performance, precision-engineered solution designed for filling thick liquids and semi-solid products with accuracy and efficiency. Ideal for industries such as food processing, cosmetics, pharmaceuticals, and chemicals, this machine ensures consistent output, minimal wastage, and hygienic operation.

Built with advanced technology and robust construction, this paste filling machine is perfect for handling viscous products like creams, gels, sauces, honey, shampoo, and other semi-liquid materials. Its user-friendly semi-automatic operation allows easy control over filling volume and speed, making it suitable for both small-scale and medium-scale production units.

Technical Specifications

- Machine Type: Semi Automatic Paste Filling Machine
- Voltage: 220V / 100V, 50/60 Hz
- Air Pressure: 0.4 – 0.6 MPa
- Filling Speed: 5 – 20 bottles per minute (single filling nozzle)
- Filling Range (Adjustable Model): 10 ml – 100 ml
- Filling Accuracy: ±1%
- Packing Size: 920 × 340 × 330 mm
- Weight: 22.8 kg

Available Model

You are requested to select the appropriate range prior to placing your order.

Specifications

Cat no	Capacity
AL-840C	10ml – 100ml, Single Head (semi-automatic pneumatic paste filler)
AL-840D	10ml – 100ml, Double Head (semi-automatic pneumatic paste filler)
AL-840E	50ml – 500ml, Single Head (semi-automatic pneumatic paste filler)
AL-840F	50ml – 500ml, Double Head (semi-automatic pneumatic paste filler)
AL-840G	100ml – 1000ml, Single Head (semi-automatic pneumatic paste filler)
AL-840H	100ml – 1000ml, Double Head (semi-automatic pneumatic paste filler)
AL-840I	300ml – 2600ml, Single Head (semi-automatic pneumatic paste filler)
AL-840J	500ml – 5000ml, Single Head (semi-automatic pneumatic paste filler)
