SKIN BLOCK MODEL ENLARGED

Code: W-2262 GST: 18% Brand: AVAIN LABS

AVAIN LABS®SKIN BLOCK MODEL ENLARGED

The AVAIN LABS® Skin Block Model Enlarged is a highly detailed three-dimensional anatomical model designed to demonstrate the structure and layers of human skin with exceptional clarity and accuracy. Enlarged 70 times from actual size, this educational model provides an in-depth view of the various components of the skin, making it an ideal teaching aid for medical colleges, nursing institutes, biology laboratories, dermatology departments, and educational institutions.

The model accurately illustrates a cross-sectional view of human skin in three-dimensional form, allowing students and healthcare professionals to study the arrangement and relationship of different skin structures in detail.

Important anatomical features including hair follicles, sebaceous glands, sweat glands, sensory receptors, nerves, and blood vessels are clearly represented and labeled, providing a comprehensive understanding of skin anatomy and physiological functions.

Manufactured using high-quality materials with realistic coloring and anatomical precision, the model serves as an excellent visual and hands-on learning tool for classroom demonstrations, laboratory training, and patient education.

Key Features

- Highly detailed 3D anatomical model of human skin structure.
- Enlarged 70 times for clear visualization of microscopic skin components.
- Accurately displays the various layers and structures of human skin.
- Shows hair follicles, sebaceous glands, sweat glands, receptors, nerves, and blood vessels in detail.
- Realistic anatomical coloring for improved learning and identification.
- Durable construction suitable for repeated educational use.
- Ideal for medical, biological, dermatological, and healthcare education.
- Excellent teaching aid for classroom demonstrations and laboratory studies.
- Equivalent Model No.: XC-313-2

Applications

- Medical Colleges and Universities
- Nursing and Paramedical Institutes
- Biology and Anatomy Laboratories
- Dermatology Departments
- Schools and Educational Institutions
- Healthcare Training Centers
- Patient Education and Clinical Demonstrations

The AVAIN LABS® Skin Block Model Enlarged is an essential educational resource for understanding the anatomy and physiology of human skin, offering a realistic and highly enlarged representation for effective learning and professional training.
