SLOTTED WEIGHTS (With Hanger)

Code: AL-PY318 HSN: 9033 GST: 18% Brand: AVAIN LABS

AVAIN LABS®SLOTTED WEIGHTS (With Hanger)

The AVAIN LABS® Slotted Weights with Hanger are designed for accurate mass measurement and force experiments in physics laboratories, educational institutions, and scientific research environments. Manufactured from high-quality materials for durability and precision, this weight set includes a sturdy hanger and accurately calibrated slotted weights, making it ideal for a wide range of mechanics and experimental physics applications.

The slotted design allows weights to be easily added or removed from the hanger, enabling quick adjustments during experiments. Widely used in schools, colleges, universities, and training laboratories, these weights provide reliable performance for demonstrations, practical exercises, and scientific investigations.

Key Features:

- Premium AVAIN LABS® Slotted Weights with Hanger
- Precision-calibrated weights for accurate experimental results
- Durable construction for long-lasting laboratory use
- Includes sturdy weight hanger for convenient operation
- Easy-to-add and remove slotted weight design
- Suitable for mechanics, force, and motion experiments
- Ideal for physics laboratories and educational institutions
- Corrosion-resistant finish for enhanced durability
- Reliable and easy-to-use laboratory apparatus

Applications:

Perfect for force experiments, pulley systems, Newton’s laws demonstrations, mass and weight studies, mechanics experiments, acceleration investigations, and general physics laboratory practicals.

Why Choose AVAIN LABS® Slotted Weights with Hanger?

- Accurate and dependable laboratory measurements
- Designed for educational and research applications
- Durable construction for repeated use
- Facilitates hands-on learning in physics laboratories
- Trusted AVAIN LABS® quality and precision
